

GX-HMV serijos mikrobangų džiovyklų parametrai

Equipment model	GX-60HMV-8X	GX-120HMV-12X
Working frequency	2450+50MHZ	2450+50MHZ
Rated input power	≤60KW	≤120KW
Microwave output power	≥50KW	≥110KW
Working temperature	70-200°C(can be adjust)	70-200°C(can be adjust)
Cooling way	Water cooling/air cooling	Water cooling/air cooling
Working time	24hours (continuous)	24hours (continuous)
Feed port and discharge port height	40-100mm	40-100mm
Belt height	600-1000mm	600-1000mm
Belt transmission speed	0-10m/min (can be adjust)	0-10m/min (can be adjust)
Dehydration rate	40-50kg/hour	80-100kg/hour
Overall size(L*W*H)	12500mm*1600mm*2200mm (customization)	16500mm*1800mm*2200mm (customization)
Belt width	750+100mm(customization)	1000+100 (customization)
Microwave leakage standard	National standard ≤5mw/m ²	National standard ≤5mw/m ²
